

RELEASE NOTES

Release name : march-2019
Date : 14-03-2019
Author : Martin Lingstuyt

Short description about the release

This release brings a large update to Easy2Meet: a new PDF reader.

New functionalities

In this release the following functionalities are added:

Reference nr	Description
0001	New PDF Reader tool to view and annotate PDF's in the participant app.
0002	A lot of added options to style annotations.
0003	Ability to add notes to existing annotations.
0004	Export PDF's from the participant app with or without annotations.
0005	Annotate PDF's from your mobile phone.

* This new version has currently only been shipped for iOS and Windows users. Android support will follow in due time.

Important: Windows 8.1 support dropped

With this release we dropped support of Windows 8.1 in our participant app. If you are still using this version of Windows, you will still be able to use the 1.8.11 version of the Easy2Meet participant app for now. We strongly advise upgrading your computer to Windows 10, since Microsoft has also dropped mainstream support of Windows 8.1 in January last year.
