# RELEASE NOTES

Release name   : January-2018
Date   : 19-01-2018
Author   : Martin Lingstuyl

Short description about the release

A release with updates on tasks and decisions reference numbers, the possibility to add comments both for organizers and participants and some hotfixes.

New functionalities

In this release the following functionalities are added:

Reference nr	Description
0001	Unique reference numbers for tasks & decisions
0002	Prefix setting for reference numbers
0003	Comment trail for tasks, decisions & topics
0004	Ability to edit comments
0005	Ability to delete comments
0006	Ability to comment publicly or privately
0007	View public comments in Organizer
0008	Support for adding attachments with '#' and '%' characters

Solved issues

In this release the following issues are resolved:

Reference nr	Description
0009	Number of days in license message issue
0010	App shows multiple authentication dialogs in PDF viewer after a period of inactivity.
0011	When writing a note in the PDF viewer, the arrow keys would change the page.
0012	When uploading meeting attachments, the organizer would convert the filenames to lowercase.

Known issues

The following issues are already noted, but aren't resolved in this release.

Reference nr	Description	Work around
0013	When using Easy2Meet in Internet Explorer and the Outlook add-in, sometimes opening Easy2Meet will result in a 'Require Nonce is true' errormessage.	1. Go to the Outlook Calendar 2. Click 'About Easy2Meet' in the ribbon. 3. Click 'Sign out' When opening Easy2Meet, the errormessage should be gone.
